EQUALIZER MODES

What is EQ? (Equalizer)

EQ = Equalizer. It helps you customize the way your music sounds by adjusting different sound frequencies like bass, mids, and treble.

This allows you to enjoy different music styles the way you like.

The PROBUDS XSCAPE 13° lets you switch between 3 pre-set EQ modes — directly from the neckband, without needing any app.

PRO BALANCE

Designed for a clean and natural listening experience where every element of the audio feels well-balanced and comfortable for long listening sessions.

Best for: Calls, Podcasts, News

PRO ROCK

Tuned to make vocals, guitars, and energetic beats feel sharper and more dynamic, giving fast-paced music a more lively and powerful feel.

Best for: Rock, EDM, Gym Workouts

PRO BASS

Focused on delivering deeper and more impactful bass that adds extra punch and immersion to beat-heavy music and entertainment content.

Best for: Hip-Hop, R&B, Pop, Bollywood

BATTERY

UPTO 70 HOURS OF BATTERY BACKUP

Charge it once, forget it for days. Experience upto 70 hours of battery backup—giving you nearly 3 days of an 'always-on, always-ready' audio experience. For Best audio Experience listen to the music at 60% volume

STEPS TO FOLLOW BEFORE USE

CHARGING

Fully charge the neckband before using it.

First Time pairing: Choose a Device which is compatible with Bluetooth headset or other Bluetooth Device to pair with the "PROBUDS N13."

SWITCHING THE NECKBAND ON & OFF

POWER ON/OFF

POWER ON : Long press the Multi-function button (MFB) for 3 seconds until the white indicator light flashes for 2-3 seconds with the prompt tone "Power on, Pairing".

POWER OFF : Long press the Multi-function button (MFB) for 4-5 seconds until the blue indicator light flashes for 1 second with the prompt tone "Power off".

NOTE After power on, if the device is not connected until 5 minutes, it'll power off automatically with the prompt tone "Power off".

CONNECTING WITH PHONE

PAIRING

STEP 1

When turned on, the blue and white lights flash alternately in PROBUDS XSCAPE 13° to start the pairing.

STEP 2

Search with Bluetooth on your Device.

STEP 3

Choose "PROBUDS N13"

STEP 4

*Blue LED + Prompt tone " Connected" on PROBUDS XSCAPE 13°

NOTE

When powered on, "PROBUDS XSCAPE 13°" automatically connects with the last paired device if it is within the connection range with Bluetooth turned on: Notifies with a voice prompt, "Connected." If the device disconnects, notify with the voice prompt "Disconnected."

DUAL PAIRING

Follow the below steps to connect 2 devices with PROBUDS XSCAPE 13°:

Pair “PROBUDS N13” with “Device A”. Once pairing is done, disable the Bluetooth on Device A.

Pair “PROBUDS N13” with “Device B” and after connecting successfully enable the bluetooth on Device A.

Both Devices A & B are now connected simultaneously with the Device PROBUDS XSCAPE 13°.

NOTE If your Device supports the automatic re-connection function, ‘PROBUDS XSCAPE 13°’ will be automatically connected to the previous connected devices.

GAME MODE

GAME MODE WITH ULTRA LOW LATENCY

Enter the ultimate gaming experience mode with always active 45ms Ultra Low Latency & enjoy lag free audio.

FACTORY RESET

RESET FACTORY SETTING

Press both volume buttons “+” & “-” together for 5 seconds to reset the neckband.

All pairing records of your neckband will be deleted.

CONTROLLING THE CALLS WITH MFB

ANSWER/END CALL

Short press the “Multi-function button (MFB)” to answer or end a call—notifies with the voice prompt “Incoming call” or the phone ringtone.

SWITCHING A CALL (2nd Call)

- Short press the “Multi-function button (MFB)” to answer the second call & hang up the first call
- Double press the “Multi-function button (MFB)” to answer the second call & hold up the first call
- Long single press the “Multi-function button (MFB)” to reject the second call and answer the first call.

REJECT CALL

Press the “Multi-function button (MFB)” twice during an incoming call.

REDIAL LAST DIALED

Triple-click the “Multi-function button (MFB)” to redial the last number from the device call list.

NOTE

The above functions work in a standby or usage state.

CONTROLLING THE MUSIC WITH MFB
